GAINESVILLE, FLORIDA, WEDNESDAY, JULY 21, 1909

TEN CENTS A WEEK

EXCURSION TRAIN WAS WRECKED NEAR OCALA

A. C. L. Baseball Special Meets With Terrible Accident---Miracle That No One Was Killed.

One of the worst railroad wrecks that has ever occurred in Florida, occurred on the Atlantic Coast Line at Ray's Spur four miles north of Ocala Tuesday afternoon at 12:30. The train left Gainesville at 10:20 a. m., with eleven coaches containing 400 passengers, about one-half being colored, in charge of Conductor Summerlin and Engineer Rives.

No mishap occurred until the train had reached the above named point, when the terrible accident happened. The engine, baggage car, and first seven coaches passed safely over the switch but evidently the passage of the engine and these coaches by some means loosened the bolt of the switch, and the other five coaches, containing white passengers, were thrown from the track, one taking the side track, and the other four being thrown over and almost completely demolished.

Strange to say, no one was killed, which is nothing less than a miracle, but fourteen persons were injured, the most serious of whom was Eddie Smith, pressman in The Sun office, whose left arm was broken above the

wrist, and who it is feared also sustained internal injuries.

Following is the list of those injured, all of whom are residents of Gainesville with three exceptions:

Oscar Kennebaw, knee dislocated.
Eddie Smith, wrist broken.
T. B. Stringfellow, back hurt.
Ruth Kennard, cut over eye.
H. G. Kennard, bruised about body.
D. H. Grace, Evinston, thumb hurt.
J. B. Brooks, knee hurt.
R. B. Bostick, ankle sprained.
John Jones, Micanopy, foot hurt.
Mrs. Mary Kennard, back sprained.
H. H. Pinkson, hip injured.
W. P. Welch, leg hurt.
J. W. Means, leg hurt.
C. McCaully, Martin, back sprained.

Superintendent McArthur was on the train, and although among the injured he was very prompt in securing aid for the afflicted, and within less than an hour following the accident he had the wounded parties in the Ocala House, receiving the best of medical attention.

OAK HALLS WON THE GAME AT OCALA 5 TO 0

HINES HAD 'EM AT HIS MERCY
AND NEVER WALKED A MAN.

Brilliant Fielding of Oak Halls Made
Ocala Sports Sick--Hendricks
and Denton Batted Fine.

(By Jack Shea.)

GAINESVILLE 5, OCALA 0.

The famous Oak Halls literally played rings around Ocala yesterday, and made them look like a work horse hitched to a surry.

There is no use talking, Gainesville had the best team and the majority of loyal rooters, and they cheered their favorites on to victory at every opportunity.

The park was crowded, about one thousand people attending the game. The all-round work of Tim Hendricks was the feature of the game, while "Bebe" Denton shared with him in the batting honors.

Hines, the Oak Hall twirler, had the Ocala chaps at his mercy, not a man reaching third base, and only three of the Brick City boys could locate the ball.

How It Was Done.

First Inning--Miller skied out to center; Allen flew out to left; Graham popped out to short. No runs.

Dodge got one in the ribs and took his base, but was out trying to swipe second (the base was contagious); Harris out, short to first; Donaldson, Capt. as they call him, WHIFFED. NO RUNS.

Second Inning--Ham Bullock hit for one base, and then came Tim Hendricks with a neat two-bagger to right; Denton hit to pitcher, safe on first, scoring Bullock, and sending Hendricks to third; Taylor hit to right for one base, scoring Hendricks, but Denton was thrown out at the plate. Taylor taking second on the throw-in; Watson hit to pitcher, out on first. Taylor taking third; Hines ended the inning by fanning. Two runs.

McCormick (imported) singled to left; Gore whiffed, and McCormick stole second, but was caught napping, and of course the blocks were put to him--it was funny; W. Dodge popped a little one to Sandy. NO RUNS.

Third Inning--Miller hit to third, who spilled it, Miller safe, but a moment later stole second; Allen hit to third and was safe on first, but Miller was run down between second and third; Graham struck out; Allen was thrown out trying to pilfer second. No runs.

Melver hit to center for one base, but was thrown out trying to swipe second. (Harry did that thing.) Galloway fanned; Brown, the invincible (?) flew out to right. NO RUNS.

Fourth Inning--Harry Bullock hit a slow one to second, out at first; Tim Hendricks hit to short and went to second on his throw to first; Denton out on grounder to second. Taylor hit for two bases, scoring Hendricks; Taylor went to third on passed ball; Watson whiffed. One run.

E. Dodge struck out, Harris sent a high one to short left, Sandy running back and making a nice catch; Donaldson, Capt. as they call him, popped a little fly to Denton. NO RUNS.

Fifth Inning--Hines out, short to first; Miller grounded out to short. Allen fouled out to catcher. No runs. McCormick (old resident of course) hit in front of plate, Bullock picking it up and making a nice throw to first in time to catch him; Gore, another old resident, of course, (?) fouled out to first; W. Dodge could not locate the ball on three swings. NO RUNS YET.

Graham flew out to center; Bullock out, third to first; Hendricks, of course, singled past third, it being his

(Continued on Page Eight.)

SAYS PRESIDENT TAFT WILL SIGN TARIFF BILL

The Consumer Would Have Been Much Better Off Under the Existing Dingley Law.

WASHINGTON, July 20.--President Taft, in the opinion of the writer, will sign the Payne-Aldrich bill, and it will not conform to the expectations voiced by the President in the statement recently issued from the White House.

At this late day--after the members of Congress have voted--the President demands free iron ore, free wool, free oil, and free hides.

It is probable that the President will get these concessions, with the possible exception of free iron ore.

If raw products go on the free list, and the tariff on manufactured articles is not reduced correspondingly, the tariff bill will be more discriminatory against the people and in favor of the tariff barons than when it went to the conference. If the President's recommendations relative to free raw materials are carried out, the revision of the tariff will have amounted to revision downward on the product of the miner, the farmer, and the toiler, and revision upward on the product of the trusts. It will give the tariff trusts the opportunity to swell their already fabulous profits, as a result of being able to buy their raw materials cheaper and to exact higher prices for the manufactured product.

In asking for free raw materials the President is responding to the demand of the New England manufacturers. Their prayer is for revision on raw materials. The sentiment of the country is for revision downward on both raw materials and the manufactured product.

As Senator Aldrich's clients will not be hostile to free hides, free coal and free oil, these "concessions" will probably be allowed the President. The Republican bosses no doubt believe free raw materials will tend to lead a revision downward color to the tariff bill, and detract attention from the schedules that will materially advance the cost of living.

The expectation of the President that will not be fulfilled is the hope that the bill will be revised as promised in the Republican platform, on the basis of equalization of cost of production at home and abroad, plus a reasonable profit.

If the bill is to conform to that principle it will have to be revised from the first schedule to the last.

The framers of the tariff bill under discussion did not at any time pay attention to the principle of revision laid down in the platform.

The suppression of the statistics of the German government as to labor cost in that country is an illustration of the methods resorted to by Senator Aldrich to prevent the people from knowing the difference in the cost of production at home and abroad.

That wages are higher in the United States than Europe is of course admitted. What the downward revisionists wanted to know was the extent of the difference. They asked for facts, knowing that the margin between the wages paid to American workmen and foreign workmen was not nearly so great as pretended by the standpatters. For instance, the highly-protected cotton mills of New England, which make profits as high as 67 per cent, pay their average workman 97 cents a day. This is according to Government statistics.

The labor cost in the cotton manufacturing industry, according to Commissioner of Labor Carroll D. Wright, is 26 per cent. The Payne-Aldrich bill fixes the average tariff rate on cotton products at 47.14 per cent, while an average rate of 26 per cent would equal the cost of production at home and abroad, even granting that foreign workmen received no pay.

In the manufacture of glassware in the United States the labor cost is 36 per cent. If the total labor cost abroad were only half as much, the net difference in labor cost would be but 18 per cent, while the bill places a 48 per cent tariff on glassware.

The total labor cost in the manufacture of metals in the United States is 20 per cent. Accepting the statement of Senator Aldrich that the labor cost in Europe is only half as much, the difference in labor cost at home and abroad would not exceed 10 per cent. The rate in the bill now in conference is 31 per cent, three times as high as it ought to be for protective purposes if the tariff is to be revised on the principle set forth in the Republican platform.

The difference in the cost of wool production measured by labor in

(Continued on Page Two.)

New York Merchants All Anticipate Good Fall Trade

NEW YORK, July 20.--The local market is getting the benefit of many Western buyers who, with characteristic foresight, have decided that there is to be no retrogression, and that no matter if prices are much higher than six months ago, the future can bring no lower quotations than as low as at present. They desire to stock up especially conspicuous in the cotton trade. Print goods are demanded in quantities that cause the jobbers concern because of the uncertainty of being able to make deliveries.

John Claffin's recent statement that business will continue to improve with the tariff question adjusted is confirmed by the leading jobbers. They insist that had there been no such issue at present the country's prosperity would have so influenced the dry goods trade that the business for winter and next year would have been exceptional. There are no complaints that trade is not now good. In fact, as compared with the identical period a year ago the present conditions are extraordinary. But, as one jobber re-

marked, there is always room for improvement.

This, of course, has no reference to certain mills, the products of which are in such demand that orders have been refused for months to come. But there is also a slight suspicion that for fear of quoting to a disadvantage some manufacturers have refused orders so as to be able to get the benefit of the new high records expected.

The woolen and silk trades are good. Efforts to bring woolen material into greater use appear to have been successful. As for prices, they are decidedly higher. Silk goods still reflect the probability of the duty finding a different adjustment in the final conference.

The export trade is indifferent as yet. There has been some improvement in South American shipments, but the Orient is not willing to come into the American market until prices are made more stationary. It is difficult to see how the foreign buyers can hold aloof on that account since everything favors higher figures.

French Noblewoman Offers To Sell Titles At Discount

NEW YORK, July 20.--To any rich American woman who is ambitious to scintillate in the society of the European nobility, a woman styling herself the Marquise De La Rochebryant offers a display of twenty-nine choice titles from which a selection may be made.

"Marquise De La Rochebryant" is in this city and has caused to be inserted in the newspapers an advertisement that for a sufficient cash payment she will dispose of any one or more of her titles. Explaining that a brother had wrecked her for \$500, she said she came to the United

States to dispose of at least one title in an effort to recoup the family fortunes. She particularly recommends her title as Countess D'Aulter as a desirable one for any American woman who is willing to pay \$1,000. She says she has been offered \$500,000 for it, but could not think of letting it go at that price.

"I want to raise some money for my husband's sake," explained the Marquise De La Rochebryant, "and I cannot see anything dishonorable in trying to sell one of my titles. I have twenty-nine, and I want cash for some of them."

Substantial Improvement Shown in Business Affairs

NEW YORK, July 20.--Every week sees a steady and substantial improvement in the business situation. The manufacturing interests of the country are operating at a higher percentage of capacity. As a rule, prices of both raw and finished products are advancing. There is a decided tendency to discount the settlement of the tariff and the harvesting of good allround crops.

Close students of the situation are becoming more confident that conditions will be favorable this year to business expansion. We are fast approaching the time when the outlook will be clearer, and when the commercial world can make satisfactory deductions, and that will be the signal to go ahead.

The United States Steel Corpora-

tion is said to be operating 90 per cent of its present capacity, which is equivalent to 97 per cent or more of the 1908 capacity. The price of steel billets has been further advanced \$1 per ton.

Copper, the metal, is marking time the large accumulated stocks still operating as a weight upon prices. But it is significant that in lines consuming large quantities of copper, business is improving. For some time past, while prices for raw products in some cases have been high, little or no advance has been obtained in finished goods.

Altogether little complaint is now heard in business quarters. Sentiment is bound to be restrained for a time longer, but people are beginning to see daylight, and anxious to again become busy.

EDISON HAS MADE GOOD HIS PROMISE

FAMOUS INVENTOR HAS COM-
PLETED \$1,200 CEMENT HOUSE.

Plans Provide Six Styles of Architec-
ture—Plant Costs \$40,000—Can
Erect 144 Houses a Year.

Greater than he who builds ships
and guns of war is the man who
shows how to build homes—builds
them cleaner, cheaper, roomier.—
Emerson.

EAST ORANGE, N. J., July 20.—A
home builder, whose work will affect
vitality the inner life of the next gen-
eration—this is Thomas A. Edison,
come to fulfill the prophecy of Em-
erson.

The wizard of East Orange has
prepared his paraphernalia, his black
cloth, his magic table. Soon he will
wave his hand, and presto—

A house, springing out of nothing.
Edison will pour a house from mol-
ten cement—just pour it out with no
more effect than the iron master
pours red fluid iron and produces
bars and plates, or the statue maker
casts his plaster figures.

The poured cement house—after
eight years of experimenting and two
years of uninterrupted hard work, is
ready. He will pour his first building
at East Orange early in August.

Here is a thumb nail description of
the house as it will come from the
mold:

Size 25x30 feet ground plan.

Rooms—Big living room and kitch-
en on first floor, two big bedrooms,
wide hallway, closets and bath up-
stairs, front and back porch.

Cost—About \$1,200.

Material—Light gray re-inforced con-
crete.

Time to Mould—Fourteen days.

Decorations—Facades and orna-
mental work along porch, carved
stone pillars in hallways, window
seats and paneled doors, with myth-
ological figuring, gabled roofs.

Special Advantages—Fireproof and
vermin proof; no repairs.

The people it will benefit particu-
larly—The poor who now live in
wretched quarters.

Inventor—Thomas A. Edison.

The Edison home, if it accom-
plishes half what its creator expects,
will revolutionize house-building.

Objections Overcome.

Several great objections which
arose two years ago had to be over-
come by Edison in his later plans.

One—a practical builder's objec-
tion—was that the cement could not
be forced through an intricate set of
molds and be of the same consistency
and strength throughout. Also that
the surface would not be smooth.

But Edison has produced a cement
of a consistency almost like water
which holds the stone and aggregates
equally throughout. It will also se-
cure a surface so smooth that it can
be painted or frescoed or tinted.

Another objection was that it
would be impossible to build molds
which would make inner rooms and
closets. This, too, has been over-
come.

Still another—this time from archi-
tects—was that all the houses would
be alike, necessarily; that people
would not live in them on that ac-
count.

But the Edison molds are adapted
to a number of variations. With six
sets of molds, which the inventor
reckons as the right number for a
good working arrangements, an im-
mensely wide variety of houses can
be constructed.

Now for a description of an Edison
one-family, two-story house, 25x30 feet

gent's Hardware. Both
plain and elaborate designs.

BAIRD HARDWARE CO.
Building Material
of All Kinds

outside, to go on a lot 40x60. This
gives a lawn and small garden room.

The front or living room is large,
14x23 feet, while the kitchen is but
3 feet narrower. The ceilings are
9½ feet high.

The stairway extends both ways—
to the living room and the kitchen.
The second floor contains the two
big bedrooms—one 15x14, the other
3 feet narrower. The upper hallway
is nearly 20 feet long, leading from
the back of the house to the bath
room, which is 7½ feet square.

The attic is 27x23, which, with a
dividing partition, would make two
rooms.

There are many windows. The
downstairs rooms have four each.

The material throughout is rein-
forced concrete. The only woodwork
are the window frames, which
makes it impossible for fires to break
out.

The decorations are cast with the
rest of the house. So are all appli-
ances, such as bath and laundry tubs,
steps and coal bunkers.

Cost of Building.

Edison's estimate of the cost is
based on the builder having the equip-
ment and trade to keep six months
busy all the time, and on being able
to use the gravel taken in digging the
foundations.

One set of molds will cost \$25,000.
The rest of the plant would come to
\$15,000. Successful operation, Edison
figures, would require six sets of
molds kept busy all the year. Such
an outfit would turn out 144 houses
a year.

A Clean Head Means A Cool Head

Good Thing to Know in Warm
Weather.

Better to know what will make the
head clean and cool.

Only one answer.

Parisian Sage.

You've heard of it of course.

You knew it was the only real dan-
druft germ killer worth while.

You know W. M. Johnson guaran-
tees it to stop dandruff, falling hair
and itching scalp in two weeks or
money back.

That this wonderful hair rejuvena-
tor, Parisian Sage, turns harsh faded,
hustler's hair into silky, beautiful,
lustrous hair in a few days.

You know that it is extensively used
by women of refinement.

But you didn't know that it would
keep the scalp cool and cool in every
way.

Well, now you know it, so get a
large bottle and if you don't satis-
fied get your money back. All agents
at W. M. Johnson's.

Leading druggists everywhere in
America have sold Parisian Sage, and
you can now send orders transac-
tioned and get the money back if
not satisfied. Keep it in America
by Giroux Mfg. Co., Buffalo, N. Y.

SAYS PRESIDENT TAFT WILL SIGN TARIFF BILL

(Continued from Page One.)

this country and abroad is about 8
per cent. The tariff is 58 per cent.

In the paper and pulp schedule the
difference in the labor cost of produc-
tion at home and abroad is between
11 and 12 per cent. The tariff
schedule is 21 per cent.

In sundries the difference in labor
cost in this country and abroad is
9 per cent, while Senator Aldrich
imposed an equivalent ad valorem
duty of 23 per cent.

In the statement issued from the
White House it was made to appear
that the President would require that
the tariff be revised on the basis
promised in the platform—equaliza-
tion of cost of production at home
and abroad, plus "reasonable" profit.

The reduction in conference of the
rates mentioned would spoil the mo-
nopolies which the tariff trusts now
enjoy on American markets. There-
fore, with Boss Aldrich still in com-
plete control of things, there is no
reason to hope that the high aver-
age will be materially interfered
with.

If raw materials are placed on the
free list, and the other schedules
remain as they stood when the bill
went to conference, the joke will be
on the consumer, who would have
been better off to have continued
on under the existing Dingley law.

Help for Those Who Have Stomach
Trouble.

After doctoring for about twelve
years for a bad stomach trouble, and
spending nearly five hundred dollars
for medicine and doctors' fees, I pur-
chased my wife one box of Chamber-
lain's Stomach and Liver Tablets,
which did her so much good that she
continued to use them and they have
done her more good than all of the
medicine I bought before.—Samuel
Boyer, Folsom, Iowa. This medicine
is for sale by all druggists. Samples
free.

The Romance of Other Years.

"One of the most beautiful smiles
ever seen upon the face of mortal suf-
fused itself on the countenance of
Lord St. Orville as he fell at the feet
of Julia in a deathlike swoon." You
probably suppose that this sentence is
an extract from some schoolgirl's nov-
ellette; but, in fact, it comes from a
novel which eighty years ago was set
on the tables of most people of taste
and culture. That is the style which
was delectable in the brave days of
old.—London Telegraph.

A Golden Wedding

Means that man and wife have liv-
ed to a good old age and consequently
have kept healthy. The best way to
keep healthy is to see that your liver
does its duty 365 days out of 365.
The only way to do this is to keep
Ballard's Herbine in the house and
take it whenever your liver gets in-
active. 50 cents per bottle. Sold by
W. M. Johnson.

Accommodating Him.

Youth—Oh, I don't want to take that
character. I'll make a fool of myself
sure. Maiden—Well, you said you
wanted an easy part.—Detroit Free
Press.

Chased by a Sea Serpent.

"Ever see a sea serpent?"
"I was chased by one once."
"What did you do?"
"Got up and lit the gas."—Pittsburg
Post

A Contented Woman

Is always found in the same house
with Ballard's Snow Liniment. It
keeps every member of the family
free from aches and pains, it treat-
cuts, burns and scalds and rheu-
matism, neuralgia, lumbago and
all muscular soreness and stiffness.
50c. box and \$1.00 a bottle. Sold by
W. M. Johnson.

A Possible Reason.

"I can't understand why I don't
should have drunk"
"Not can I. I wouldn't have had me
was doing good." He then came to
see his father.—Detroit Free Press.

What the doctor says is the best thing
that I have heard.
Feeding children has never so low
dangers, which can be prevented by
giving Chamberlain's Cough Remedy
and Chamberlain's Stomach and Liver
Tablets. All that is
necessary is to give the children
these two little remedies and they will
be free from all danger and their parents
will be able to breathe the whole of it
and will be able to sleep at night.

S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect
the skin, their source is far deeper than the outside cuticle. These affections
are caused by irritating humors, or uratic acid in the blood. Such impurities
inflammate and irritate the delicate net-work of fibrous tissue which lies just
beneath the surface of the outer skin, and the inflammatory discharge thus
produced is forced out through the pores and glands, and is continually
kept up while the blood remains infected. This exudation causes the forma-
tion of scales and crusts so often seen in Eczema, and when they are
scratched off the flesh is left raw and more susceptible to other infection.
It can very readily be seen then that to produce a cure the circulation must
be purified and cleansed. This S. S. S. will do. It goes down to the very
bottom, removes all humors and impurities, neutralizes the excessive acids
of the system and in this way removes the cause of disease. Local applica-
tions can only soothe the irritation and assist in keeping the skin clean; they
never produce a cure because such treatment does not reach the blood.
S. S. S. restores to the thin, acrid blood all its lost properties, makes it
pure and rich and enables it to nourish the skin and keep it soft, smooth
and healthy. Book on Skin Diseases and any medical advice free to all
who write.

PAPER STOCK BEING LIBERALLY TAKEN

WAS PLACED ON MARKET LAST
WEEK FOR FIRST TIME.

General Manager Williamson Highly
Encouraged Over the Prospects
of This Large Company.

The stock of the Kraft Paper Company, the proposed factory for Greater Gainesville, is now being liberally subscribed for by the citizens of Gainesville and throughout the county.

Mr. Williamson stated that they were in receipt of many letters of inquiry since the publication of the prospectus in The Sun, and he was satisfied that the stock would be taken in sufficient quantities to start the work on the buildings and plant within a few months.

The location selected some time since for this mill is just north of the city, a plat directly between the T. & J. Railway and Coast Line. The vast amount of timber under their control starts at this point and runs for miles in north, east and western sections, and a sufficient quantity is owned to operate almost indefinitely.

The location of this mammoth plant for Gainesville will mean at least an increase in population of fully 2,000 people, and everyone should lend their aid in securing the factory.

Other sections will probably make bids for the location of this mill but owing to the fact that their greatest interests are here, Gainesville can, with proper efforts, secure this manufacturing enterprise, and the Board of Trade should exercise their best efforts in securing the plant for this city.

Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar, as it cures stubborn coughs after other treatment has failed. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." J. W. McCollum & Co.

A HARD STRUGGLE

Many a Gainesville Citizen Finds the
Struggle Hard.

With a back constantly aching.
With distressing urinary disorders,
Daily existence is but a struggle.
No need to keep it up.
Doan's Kidney Pills will cure you.
Gainesville people endorse this claim:

Mrs. Eliz. Ratherree, 201 W. McCormick street, Gainesville, Fla., says: "For years I suffered from dragging pains in my back, often so severely that I could not move. The secretions from my kidneys were also irregular in passage and caused me further annoyance. Any cold I contracted aggravated my trouble and at such times I was in misery. A friend finally advised me to try Doan's Kidney Pills and I did so. The first few doses gave me relief and when I had taken the contents of one box, the pains disappeared and my kidneys became normal. Doan's Kidney Pills cured me and I am glad to give them the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

STRANGLED TO DEATH IN PECULIAR MANNER

TAMPA, Fla., July 20.—The Daily Tribune of Monday chronicled the death of a child which probably occurred in the most peculiar manner ever recorded.

Leroy Lassiter, colored, about one year old, early yesterday morning came to his death while his mother was ironing in the rear of her home on Maryland avenue, close to Scott street and near the stockade.

The child hanged himself. Death was brought about in the most novel manner in local annals. Rolling about on the bed, where his mother left the infant while she ironed some clothes in another room of the cottage, the baby rolled to the foot of the bed, falling feet first in the space between mattress and iron rail of the bedstead. The chin and back of the head were caught in firm position in this way and slowly the child strangled to death while the mother worked industriously away.

First information of the tragedy was conveyed to police headquarters by Dog Catcher Arthur Schleman, who telephoned from the stockade. Police Captain Matthews hurried to the place and found the report true in every detail. The case looked mysterious to this officer and he at once placed the mother in the city stockade for safe-keeping pending a coroner's inquest. Coroner Gibson was informed, a jury was impaneled and brought in a verdict that the infant came to his death through strangulation. The jury did not hold the mother responsible and she was released immediately from custody.

The mother, a washerwoman, declares she left the child in the bed while doing her work. The infant rolled all over the bed in its play. She paid little attention to it. Later she heard the child crying, but still paid no heed, thinking that Leroy would soon hush its cries. Its cries were silenced, but not until the baby boy strangled itself to death in the wedge, the height of the child not permitting its feet to touch the floor from the bed.

Twenty-Five Cents is the Price of Peace.

The terrible itching and smarting incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price, 25 cents. For sale by all druggists.

Witty Daily.

He—I say, Dolly, may I take your photograph? You look so pretty that I feel I could eat you. She—Oh, I see that's why you want me on a plate, why?

Precaution is better than repentance.—Greek Proverb.

Foley's Honey and Tar not only stops chronic coughs that weaken the constitution and develop into consumption, but heals and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. J. W. McCollum & Co.

SANFORD IS COMING FOR THREE GAMES

JULY 29, 30 AND 31 DATES SE-
LECTED BY CELERY LADS.

One of the Strongest Teams in the
State, and Real Interesting
Games Are Assured.

Sanford, one of the best amateur baseball clubs of the State, is to be here for a series of three games next week, commencing on Thursday, July 29th.

In speaking of other games arranged to be played here Manager Davis said that he was not sure as to the dates, but it was probable that Palatka would come here for a return game on Thursday of this week, but as the manager, Mr. Kalbfeld, is sick, he could hear nothing definitely from them.

Orlando has all of her time filled for the present but is coming here for a series of games sometime during the early part of August.

The "kids" may go to West Florida for a road trip, and in the meantime other places will be corresponded with for games. Starke is playing good ball and may be induced to come here, and our old rival, Lake City, is also doing something along the line of ball, and we may have them here for a couple of games.

The games with Sanford will be among the most interesting we will have here during the entire season and large crowds should attend if they want to see a pretty article of ball.

Starved to Death

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pasty-complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge—you will be surprised at the results and how quickly it picks up. Sold by W. M. Johnson.

The Filler Foiled.

Recently one young man bet another that he could not break an egg placed on the floor of their room by hitting it with a barrel. The second young man promptly took the bet.

Thereupon the first young man carefully placed an egg in a corner of the room, just where the walls made a right angle, so that it was impossible for the other to hit the egg with an ordinary barrel.

Then the first young man proceeded to gloat.

But the other suddenly produced a revolver and broke the egg by tapping it smartly with the barrel of the weapon. Then he demanded the money.

There was quite a dispute naturally. Finally the two agreed to submit the question to the editor of a sporting paper. In due time the answer came. The sporting authority decided that the second young man was the winner of the bet, since the other had not specified in any way what kind of barrel should be used for the destruction of the egg.—New York Times.

MALARIA.

A Statement of a Successful Cure.
(Mrs.) Mabel Smith, Dallas, writes: "Feb. 1909, PAM-ALA has absolutely cured me of Malaria (Chills and Fever). For some months past I have lived in the swamps of Louisiana. I never saw a well day for six months. Malaria has held me in its grip and for the past seven weeks I have been confined to bed. Thanks to Pam-Ala I am now entirely well again."

PAM-ALA
Contains no Quinine.
All Druggists. \$1.00 bottles.

The Board of County Commissioners will meet at the Clerk's office in the court house on Monday, August 2nd, at 10 o'clock a. m., 1909, to hear and determine all complaints, after which date, under the law, no changes can be made in the assessment roll.

S. H. WIENGES,
Clerk Board County Commissioners.

Gainesville, Fla., July 13 1909.

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransacking the city for you. It may have a message for you of urgent personal importance—one that, when you get it, and heed it, may change the immediate currents of your activities, of your interests—may even place around and about you new environments, new associates; may give you an entirely new start in a business way.

Isn't it worth while to try to find out whether this may not be true—today, tomorrow, or very soon?

Send your orders for Job Printing to

THE SUN JOB OFFICE.

The Sun

Entered at the Post Office at Gainesville, Fla. as second class mail matter.

H. H. MOORE, Editor and Publisher

F. M. PREWITT, Supt. Composing Rooms

Office in Haymans Block.

205 W. Main Street, S. TELEPHONE 219

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; six months, \$2.50; three months, \$1.50; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates on display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The pendulum has swung—what is a Republican?

Things are not always what they seem on the tax list.

Don't plant trees where the flying machines will butt into them.

"Taft's auto skidded," says a headline. Wonder it didn't skidoo!

Drunken chauffeurs are prohibited in Georgia. Wonder how a man gets drunk in a prohibition State?

Under the new tariff, will it be more money for a good smoke or the same money for a poorer smoke?

If some people were as highly esteemed by others as they esteem themselves how popular they would be.

E. H. Harriman is trying to be happy though in Europe. His son has just taken over 200 of his favorite cigars.

Breathitt county, Ky., is to be chopped up and divided among several counties. Presumably, the adjoining counties are powerless to prevent it.

After reading of the happenings in Persia, Morocco, Peru, Argentina and Turkey, there is little wonder that the Powder Trust is taking on a few more subsidiaries.

It is said that Harry Thaw has improved wonderfully at Matteawan. Glad to hear it! Fifty or sixty years more in that place may make a fairly decent citizen of Harry.

If some of the endearing terms used and the gracious attention, courtesy and deference paid each other during the engagement period were continued after marriage we would hear less of marriage being a failure.

"Mr. Taft will flit from Washington to Beverly Bay and from Beverly Bay to Washington until Congress adjourns," says a contemporary. Mr. Taft may do a lot of things, grand, gloomy or peculiar, but he will not "flit" anywhere exactly.

A wise man of old said, "put not your trust in princes," and experience has proved that his warning was timely. But if he were living in these days of representative government and broken political promises he would also say, "put not your trust in politicians."

When Mr. Havemeyer used to give \$100,000 once in four years to the Republican national campaign fund many people thought him exceptionally generous. Now we know he was only paying a low rate of interest on the millions of actual cash his sugar trust cheated the Government out of.

Since reading the statement that an automobile concern was going to furnish Claude L'Engle an auto to canvass Florida for the United States Senate as an advertising scheme, we've concluded to do a little running ourselves, provided we can make the same deal. It doesn't make any difference what office we run for. It's the automobile we're after. Nuff sed.—Manatee County Record.

A CROWDED LIFETIME.

By the dint of decent living, says The Wall Street Journal, there are still a few people left who saw the first steamboat, rode in the first railway cars, listened to the first telephone call, read of the first cable message across the ocean and saw heavier-than-air machines swoop through the atmosphere by their own power.

The recital of a few lines of these events covering nearly a hundred years illustrates how full of achievements in mechanical lines the world has been in the past three generations. The shipping which sprang from the first steamboat amounts now to about 25,000,000 of ocean tonnage. There are not far from 500,000 miles of railway in various parts of the globe. Submarine cables extend 205,000 nautical miles. Telegraphy in its various forms has not only united distant portions of each country into a more compact unity, but has shrunk the distances between the ends of the earth from thousands of miles to minutes of time.

These achievements lie almost wholly in the domain of man's more exact and more complete mastery over the powers of physical nature. But they leave to human life no substantial resting place. Every increase in command over material resources is but the point of departure for a new solution of the old problems of a much more fundamental character than is involved in things material. A century ago isolation and individuality were emphasized as ideals of existence. The call was "back to nature." Today the demand is different. The problem is that of contact and co-operation in the solution of old problems under new phases.

Man lives now far less unto himself and far more with his fellows. The whole social system is bent upon the task of utilizing these resources for leveling the mass of men upward rather than in the isolation of individuals of signal capacity. There is no doubt some loss of leadership, but there is much gain in the distribution and the opportunity for self-realization. The lesson that our wealth-getters need to learn is that wealth that does not make for worth is of doubtful value. That lifetime is richest which uses the treasures of lower things to rise and to enable others to rise to higher things.

President Taft recently played a pretty joke on a considerable number of Washington correspondents. He assembled a score or more of them in the cabinet room and then told them he had sent for them to tell them that he had no news for them. It appears that many of them had been seeking interviews with him, and refusing to take the word of his secretary that the President had no views he cared to make public, he concluded to send for them and tell them himself that such was his position.

It is a curious physiological fact that as a nation advances in wealth, culture, and civilization generally, the birth rate steadily diminishes. This is very marked in several countries, including our own, and now Germany shows a similar condition. This decline first affects the wealthy and leisure class, but in time it also affects the masses to about the same extent. Fortunately, in some measure this decline is offset by a decline in the death rate. Still the ultimate result is smaller families.

The Fort Pierce Tribune, one of Florida's model weekly newspapers, has entered upon the fifth year of its existence.

Bristol, Va., now bids fair to become the mint julep center of the South.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

Senators Borah and Cummins have instituted a campaign to reform the civil service. They are convinced that horrible favoritism has been shown in making appointments and that the examinations as conducted by the Civil Service Commission furnished no criterion as to the qualifications of aspirants for Federal situations. It is somewhat noticeable that the men who most frequently want to reform the civil service are the late arrivals whose constituents have not enjoyed a share of the Federal patronage. For a good many years it has been the custom to fill up a class of Federal places with the henchmen of members of Congress and then "cover them in." That is, place them under civil service protection, so that the incumbents cannot be displaced to make room for others whose members of Congress have arrived later. Now the Federal service is so filled with the civil service employes that there is nothing more to "cover in;" naturally the new members want an overhauling which will let some of their people in for the good things.

Chautauquas and other summer assemblies are now in full swing. Essentially American in their inception and character the idea has spread to some extent in other lands, but it is here they have reached their greatest success. They do not aim to do the work which a summer institute or training school are organized to perform. But in a very happy and satisfactory way they combine the educational with the recreative, and so to many thousands of people they afford a certain inspiration and a most pleasant break in the yearly routine of life.

Never in the history of Manatee county has there been as many artesian wells drilled as have been this summer. Vegetable growers realize that it is foolishness to attempt to plant without water. At the present rate it will only be a short time until every vegetable farm in the "Land of the Manatee" will have from one to three artesian wells. Let the good work go on.—Manatee County Record.

Keep your eye on the want ads. There may be something advertised which is of interest to you.

A Hurry-Up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies—when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles are sold annually. There is but one Painkiller, Perry Davis'. Have you seen the new large 35c size?

Too much emphasis cannot be placed on the need of an Abstract in purchasing real estate.

"Buying a cat in a bag" cannot be better exemplified than by that of the purchase of real estate without an Abstract.

Be safe—the cost is small—by having us post you fully on the history of that property with an Abstract made by us.

BIG BUSINESS CHANGE MADE ON MONDAY

S. M. DAVIS BUYS INTEREST OF
A. B. OLIVER IN STABLES.

Business of This Firm Has Been
Something Phenomenal Consider-
ing Short Time Established.

S. M. Davis has purchased the inter-
est of A. B. Oliver in the livery and
sale stables of the firm and will
hereafter handle the business himself.
Although the deal has been pend-
ing for the past few days, it was only
consummated on Monday and Mr.
Davis, who was sole owner of the
building, now becomes the owner of
all the stock, making the entire busi-
ness his.

He has been a resident of this city
for the past few years and has gained
a rapid popularity among the citi-
zens and business people generally,
until now he is enjoying one of the
best businesses of its kind to be
found in this section of Florida.

The new additions recently made by
Mr. Davis give him over 25,000 feet
of floor space in his stables and this
is second to none in this part of Flori-
da.

Mr. Davis states that he will short-
ly bring in some more new stock for
the business, and he proposes to han-
dle it in the same high-class manner
that has characterized its past deal-
ings. He will make a specialty of
fancy livery, as well as look after the
wants of his many customers in
other lines.

Mr. Oliver was seen later by the
reporter and confirmed the sale of his
interest to Mr. Davis. When asked
what line he would engage in in the
future he stated that he would at
once arrange to re-enter the livery
business, a location having already
been selected.

When the stomach fails to perform
its functions, the bowels become de-
ranged, the liver and the kidney con-
gested causing numerous diseases.
The stomach and liver must be re-
stored to a healthy condition and
Chamberlain's Stomach and Liver
Tablets can be depended upon to do
it. Easy to take and most effective.
Sold by all druggists.

HANDS AND FEET ITCHED 12 YEARS

Suffered Terribly from Eczema
which Made Hands and Feet Swell,
Peel and Get Raw — Arms Affected,
Too — Gave Up Hope of Cure.

USED CUTICURA AND WAS QUICKLY CURED

"I suffered from eczema on my hands,
arms and feet for about twelve years.
My hands and feet would swell, sweat
and itch, then would become callous
and get very dry, then peel off and
get raw. I tried most every kind of
salve and ointment without success,
only got temporary relief. As soon as I
would leave off using them I would be
as bad as ever. I tried several doctors,
took arsenic for two years and at last
gave up thinking there was a cure for
eczema. A friend of mine insisted on
my trying the Cuticura Remedies but,
supposing they were the same as other
'cures' I had tried, I did not give them
a trial until I got so bad that I had to
do something. I secured a cake of Cuti-
cure Soap, a box of Cuticura Ointment
and a bottle of Cuticura Resolvent and
by the time they were used I could
see a vast improvement and my hands
and feet were healed up in no time. I
used several bottles of Cuticura Re-
solvent. This was over a year ago and
have had no trouble since. I think I
am entirely cured. Charles T. Bauer;
R.F.D. 65, Volant, Pa., Mar. 11, 1908."

BABIES CURED Of Torturing, Disfiguring Humors by Cuticura.

The suffering which Cuticura Soap
and Cuticura Ointment have alleviated
among skin-tortured, dis-
figured infants and chil-
dren, and the comfort
they have afforded worn-
out and worried parents
have led to their adop-
tion in countless homes
as a priceless treatment
for the skin and blood.
Eczema, rashes, and
every form of itching,
scaly humor are speedily cured, in the
majority of cases, when all else fails.

Complete External and Internal Treatment for
Every Humor of Infants, Children and Adults con-
sists of Cuticura Soap (25c.) to Cleanse the Skin,

EXCURSION TRAIN WAS WRECKED NEAR OCALA

(Continued from Page One.)

train had to be transferred at the
scene of the wreck for Ocala and
points south, but the track was clear-
ed and reconstructed in time for the
excursionists to return to Gainesville
last night, leaving Ocala about 9:40.

The last coach of the excursion
train which was the most crowded of
any of the white coaches, never left
the rails, and no one in that coach
was injured.

Autoists Got Stuck.

A telephone message received from
part of the automobile party that left
here early yesterday for Ocala was
to the effect that they were stuck in
the mud near Wacahoota. Mules
were engaged, and after being pulled
out they proceeded on their way with-
out mishap. In all about six cars
left here filled with parties to witness
the game of baseball, and all passed
over the bad places in the road with
but two exceptions.

A Millionaire's Baby

Attended by the highest-priced baby
specialist could not be cured of stom-
ach or bowel trouble any quicker or
surer than your baby if you give it
McGee's Baby Elixir. Cures diar-
rhea, dysentery and all derangements
of the stomach or bowels. Price 25
cents and 50 cents. Sold by W. M.
Johnson.

Central City 1, Ocala 0.

The Central City team, colored, from
this city crossed bats with the Ocala
first colored team yesterday afternoon
and defeated them in a hotly-contested
game by the score of 1 to 0.

White, Mitchell and Wm. Ham form-
ed the battery for Gainesville while
Ocala's end was held up by S. Jem
and Jones.

CAPUDINE for "THAT HEADACHE."

Out last night? Headache and nerv-
ous this morning? Hicks' Capudine
just the thing to fit you for business.
Clears the head—braces the nerves.
Try it. At drug stores.

As advertising finds the best market
for everything else, why not for your
personal services?

NEWS FROM ALL PARTS OF FLORIDA

Sanford's new electric plant is be-
ing installed.

The grocers of Leesburg have dis-
continued the practice of soliciting
grocery orders from private homes.

Free mail delivery was inaugurated
in DeLand last Thursday, three car-
riers being employed.

Company K of Daytona, of the Flori-
da National Guard, has been suc-
cessful in securing a rifle range near
Daytona.

The tax valuations on Hillsborough
county property, including real estate,
personal, railroad and telegraph lines,
amount this year to \$16,000,000.

A thirty-year franchise has been
granted J. Y. Clarke of Leesburg to
supply that town with electric lights
and an improved waterworks system.

Orange trees and the fruit never
looked better than they do at present.
The fruit is half grown and the rains
are making the trees put on immense
growths.—Volusia County Record.

The State Board of Health has de-
cided to establish a bacteriological
laboratory in Tampa and has author-
ized the erection of a suitable building
on a site to be provided by the city.

Punta Gorda is going to entertain
its neighbors of the West Coast with
a big free fish fry on Friday next,
July 22nd. Special trains on the At-
lantic Coast Line will carry crowds
from Tampa south to Fort Myers.

At a mass meeting of Lakeland citi-
zens held a few nights ago, a resolu-
tion was passed unanimously favoring
a bond issue of \$65,000 for the erec-
tion of two new schools and the ex-
tension of the waterworks system.

Negotiations are now pending look-
ing to the opening of the Putnam
House for another season. A promi-
nent hotel manager and proprietor of
Mississippi is after the property for
a five-year lease, but nothing definite
has been done as yet. It is to be
hoped that satisfactory arrangements
will be perfected, and that the big
hotel will be open for the tourists next
season.—Palatka Times-Herald.

Commissioner Dell Busy.

Street Commissioner Dell has his
force of men engaged about the square
again cleaning the gutters. It is a
noticeable fact that since he has
adopted this method the streets are
not in the same muddy condition, and
from a sanitary standpoint is to be
highly commended.

Lawn Being Improved.

Mose Sherman, the colored janitor
at the court house, can now boast
of one of the prettiest lawns to be
found in the city. The heavy rains
have made the grass all come out,
and he has had it mowed off.

Soreness of the muscles, whether
induced by violent exercise or injury,
is quickly relieved by the free appli-
cation of Chamberlain's Liniment.
This liniment is equally valuable for
muscular rheumatism, and always
affords quick relief. Sold by all
druggists.

Want advertising is a force which
you can harness, and with which you
can drive your plans and purposes
to any desired destination.

Some article that is simply "in the
way" at your house might, if adver-
tised, be sold to someone who is an-
xiously looking for it.

If its worth more to someone else
than to you—no matter what it is—
a want ad will be a good investment.

If you have lost or found anything
do not fail to keep your eye on the
classified advertising column.

JACKSONVILLE, FLA.

Worn Women

Women, worn and tired from overwork, need a
tonic. That feeling of weakness or helplessness will
not leave you of itself. You should take Wine of
Cardui, that effectual remedy for the ailments and
weaknesses of women. Thousands of women have
tried Cardui and write enthusiastically of the great
benefit it has been to them. Try it—don't experiment
—use this reliable, oft-tried medicine.

TAKE CARDUI

The Woman's Tonic

Mrs. Rena Hare, of Pierce, Fla., tried Cardui and afterward
wrote: "I was a sufferer from all sorts of female trouble, had
pain in my side and legs, could not sleep, had shortness of breath.
"I suffered for years, until my husband insisted on my trying
Cardui. The first bottle gave me relief and now I am almost well."
Try Cardui. 'Twill help you.

AT ALL DRUG STORES

NOTICE OF INCREASE IN ASSESSMENTS.

Evans Halle	E $\frac{1}{2}$ Lot 1, Sec. 5	30 50

The City Council will meet in the council chamber on Monday, Aug-
ust 2nd, 1909, at 8 o'clock p. m. to hear and determine all complaints,
after which date, under the law, no changes can be made in the assess-
ment roll. J. M. DELL, City Clerk.
Gainesville, Fla., July 16, 1909.

Horner Military School

1851—1909.
Oxford, North Carolina

Classical, Scientific and English Courses. Prepares for Col-
lege, University or the Government Academies. Military
training develops prompt obedience and manly carriage.
Academy 68 years old, with experienced teachers. Cadets
dine with the principal and ladies of his family, securing
the culture of home life. Cultivates and educates. Modern
buildings, perfect sanitation, wholesome fare, no crowding.
Best moral, mental, physical and social training. Shady
lawn, athletic park, one quarter mile running track, 800
acres. Ideal climate, helpful environment. In the social
atmosphere of refined Christian people. The town noted
for over a century as an educational centre.
Catalogues ready for distributing.

HORNER MILITARY SCHOOL
Col. J. C. Horner, Principal, Oxford, N. C.

THE IMPOSSIBLE.

It Lies Just Beyond the Limit of Our Own Understanding.

Here is a striking parable by Miss E. Fox Howard, which we take from the "Friends' Fellowship Papers":

"A dog tried to open a door. He scratched it, threw himself against it, struggled to get his nose under it and burrow his way out, but at last he decided that the door would not open and never could open, so he lay down before it and went to sleep.

"A child was watching the dog, and he laughed and turned the handle with his small fingers, and the door was open. Then he took a book, and, sitting on the floor, he turned over the leaves one by one and gazed at the queer black marks upon them without knowing what they meant, for he was a very little child and he could not read. As there were no pictures to be found he tossed it away.

"But a boy picked up the book and laughed and read page after page of a wonderful fairy tale. Then he went to school and puzzled his head over a sum which had to be brought to the class that morning. Try as he might the sum would not prove, and the boy said: 'I can't do it. I'm sure it can't be done. There must be a mistake in the book.'

"But the pupil's teacher laughed, and, taking the blotted exercise book from the boy, he quickly worked out and proved the sum. Then he turned to his own studies and went into the laboratory, for he was learning chemistry. All the morning he labored among the gases and the acids, but he could not get the right combinations and only succeeded in making a loud explosion. 'It's all rubbish to say that potash and carbon form potassium,' he said. 'They simply explode, and I defy any one to say they don't.'

"But the master, who had heard the noise, came and took it into his own hands, and soon the metal was dropping from the condenser. After school was over the master, who was getting an old man, sat in his study reading a paper on modern scientific thought. As he read his brow darkened, and at last he flung it down and said: 'It is a monstrous idea. How can the creation of the world have taken millions of years? The good old Bible account of the six days of creation is good enough for me.' And he wrote an angry letter of remonstrance to the great professor who had sent him the paper.

"But the professor only smiled, for he was a geologist and had read the message of the rocks. He himself, one of the deepest thinkers of the day, sat late into the night among his books, trying to fit some newly discovered laws of physics into his schemes of things and to bring his mind nearer to a solution of the great why of the universe. At last he bowed his head and said: 'It is impossible. Facts are too conflicting. I cannot explain them, and I doubt if there is any explanation.'

"Just beyond the limit of our own understanding lies the impossible."

Hicks' CAPUDINE Cures Sick Head-

ache
Also Nervous Headache, Travelers' Headache and aches from Grip, Stomach Troubles or Female troubles. Try Capudine—it's liquid—effects immediately. Sold by druggists.

Reward of Industry.

Faithful Housewife—Mrs. Candour, is it? I can't stop my sewing now. Tell her I'm not at home.

Ann—Please, mum, I've been tellin' so many you're not at home I wish you'd see some uv 'em.

"Why, Ann?"

"I don't like the way they act. They look at each other and snicker so."

"Mercy! Do they suspect I am at home?"

"No, mum; I wish they did. I heard one uv 'em say they wouldn't like your husband to know uv your goin's on."

"Goin's on! What do they mean?"

"They think, mum, you're the worst gadabout in town!"—Exchange.

With Reservation.

Here is the story of covenanting times in Scotland, of which an old laird of Galloway was the central figure:

Learning that he was about to be raided by Claverhouse, whose dragoons were coming in search of him, the old laird effected his escape disguised as one of his own plowmen. As he was leaving the house he was stepped by the dragoons, who asked if the laird was at home.

"Well," said the old covenanter, "he was there when I was there."

The dragoons went their way, and the old laird went his and lived to tell the truth another day.

Delay in taking Foley's Kidney Remedy if you have backache, kidney or bladder trouble, fastens the disease upon you and makes a cure more difficult. Commence taking Foley's Kidney Remedy today and you will soon be well. Why risk a serious malady? J. W. McCollum & Co.

Juliet Got the Light.

At a small seaport town a star actress of the third magnitude appeared as Juliet.

"I cannot do justice to myself," she said to the manager, "if I do not have a limelight thrown on me when I appear at the balcony."

"We ain't got no limelight, miss, but I think we could get you a ship's blue light," replied the obliging manager, and to this the lady agreed.

The lad who went to the shop to buy the blue light brought back a signal rocket, which was given to him by mistake. The prompter took the rocket in good faith.

Romeo—He jests at scars who never felt a wound.

(Juliet appears. Prompter lights a match.)

"But, soft! What light through yonder windows breaks?"

(This was the match lighting the fuse.)

"Arise, fair sun!"

The sun, or, rather, the rocket, did rise with a terrific hiss. Juliet was knocked off the balcony, the fly borders were set on fire, and the theater was filled with a sulphurous smoke, while the audience, which was fortunately a small one, made a stampede to the doors.

Since then "Romeo and Juliet" has always been looked upon in that town as a dramatic work that could not be witnessed without personal danger.—London Express.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. J. W. McCollum & Co.

A Fixed Law.

"You are positive this happened on Tuesday?" demanded counsel.

"I am," said the witness.

"Sure it was Tuesday?"

"Yes."

"Why not Thursday or Friday?"

"Because we had chicken that day. Chicken day is Tuesday where I board."—Louisville Courier-Journal.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Southern Bell Telephone and Telegraph Company

Efficient Service. Reasonable Rates.

"That Which Is Worth Having Is
Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

THE DAILY SUN, 10c a Week

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.
Four hotels.
Four banks.
Four dairies.
One foundry.
Water works.
Ten churches.
One gas plant.
Two tin shops.
Three bakeries.
Ten physicians.
Six fruit stores.
Two gunsmiths.
Six restaurants.
One seed store.
Board of Trade.
Six drug stores.
Four shoe shops.
State University.
Masonic Temple.
Twenty lawyers.
Two paint shops.
Four contractors.
One bicycle shop.
Baseball diamond.
Two ice factories.
Six music schools.
One variety store.
One public library.
Two wagon works.

WINE OF CARDUI

has brought relief to thousands of other sick women, so why not to you? For headache, backache, periodical pains, female weakness, many have said it is "the best medicine to take." Try it!

Sold in This City

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

Gainesville Furniture Company, Furniture.
Phifer & Morris Co., Clothing and Furnishings.
Gainesville Hardware Co., Plumbing and Hardware.
Mrs. F. T. McCormick, Millinery.
W. M. Johnson, Drugs and Medicines.
L. C. Smith, Shoes and Jewelry.
Mrs. R. Wilson, Dry Goods and Notions.
Saunders & Earle, Groceries and Feed Stuffs.
City Bakery, Bread and Pastry.
P. V. Smith, Fresh Meats.
Crawford & Davis, Livery and Sale Stables.
The Sun, Printing and Publishing.
The Brown House, Meals and Lodging.
N. Francisco, Banana House, Fruits, Etc.
Eddins Mfg. Co., Lumber and Building Material.
Standard Fertilizer Co., Fertilizers.

Where Votes May Be Cast

Ballot boxes will be found in the establishments of the merchants giving votes and at The Sun office. Votes sent by mail must be directed to the Voting Contest Department of The Sun, Gainesville, Florida.

Rules and Regulations

1. The contest is open to anyone living in Alachua county who is known by the conductors of the contest or vouched for by some reputable person, to them well known.

2. No employee, attaché or relative of the proprietors of the above-named firms are eligible to participate in this contest, and will participate in no manner.

3. In the event of a misunderstanding between candidates or others interested in this contest, such controversy may be referred to the conductors of contest, who alone are the persons qualified to render decisions.

4. In the event a candidate decides to withdraw from the race, such candidate will not be allowed to transfer votes to the credit of another candidate in the contest.

THE DAILY SUN

	Old Subscribers	New Subscribers
\$1.25—Three months' subscription	500 votes	700 votes

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. J. W. McCollum & Co.

By stopping with us you will be saved the annoyance of having to get acquainted with a new manager every time you come. The same proprietor for the past nine years extends the glad hand to you at the Brown House.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by all druggists.

OAK HALLS WON THE GAME AT Ocala 5 TO 0

(Continued from Page One.)

third clean hit of the game. Hendricks stole second. In an effort to get back to the bag, Hendricks was injured in the hand, Donaldson stepping on it. Hendricks was up and doing that thing and promptly swiped third, but was caught playing off a little too far from the base. No runs.

Melver out via the dead route, third to first; Galloway fanned; Brown, the Georgia peach, drove a liner to Hendricks, who gobbled it in nicely. NOTHING DOING YET.

Seventh Inning—Denton lined out a single to left; Taylor sacrificed; Watson, of course, had to butt in with his usual two-bagger, scoring Denton; Hines fanned; Miller skied out to left. One more for us.

D. Dodge bunted, safe on first, but was mowed down by Bullock's arm, and walked back to the bench from second; Harris out, second to first; Donaldson, Capt., as they call him, popped a small-sized sky-dinter to Graham and was out. NO RUNS YET for Ocala.

Eighth Inning—Allen hit to second, out at first; Graham out, short to first; Bullock was robbed of a hit by center by Galloway making a grand catch. No runs.

McCormick, the old home boy, of course, was fooled on three straights; Gore, from the same place, of course, hit for one base and stole second, but when Bullock overthrew the base Gore thought he could make it to third—he took a seat on the bench, Watson's arm being too strong for him; W. Dodge hit one to Sandy and was out at first. NO RUNS.

Ninth Inning—Hendricks out, pitcher to first; Denton hit to right for one base (pair of shoes); Allen hit through hole, both runners safe; Watson hit to third, forcing Denton out at that bag; Hines hit through third scoring Allen, but Watson was tagged trying to go from first to third on the hit. One run.

Melver out, short to first; Galloway made the same mistake of hitting to Sandy, out, of course; Brown rolled in easy one to Allen and he never smelled first base. NO RUNS AT ALL.

OFF THE BAT.

I'll swan.

Brown was easy.

Never saw the beat.

We did 'em up Brown.

Demoralizing for Ocala.

Tim kum back on the skussion.

Allen batted in hard luck yesterday.

Now hand it to Palatka the same way.

The Georgia peach was slightly specked.

The umpire was all we could expect—good.

"Pop" Watson pulled off his usual two-bagger.

Miller covered first nicely. Couldn't expect anything better.

Did you notice Bullock's pegging to second? Superb, eh?

It did not take Sandy long to show 'em how to play short.

Pink slips, eh; Ocala is "dishing" 'em out right and left.

Jack Spottswood was anxious to get a hand in the fracas, too.

Didn't Harry B. put up a fine game? He just tried to show 'em.

After crawling out of the wreck we certainly did enjoy the game.

Show up a player that can beat Tim Hendricks for all around playing.

Ocala played a good game BUT was simply outclassed at all stages of the game.

Tim Hendricks and Harry Denton

are "sporting" new shoes—their stick work earned them.

Taylor knows a few points about batting, as he laced a few of them out.

All the Gainesville boys put up the game of their life. That's why Ocala did not have a smell.

The only happy Ocala fan was the one who gained admittance to the park on a bread ticket. He didn't have the dough.

Hines is certainly the candy when it comes to pitching. They either had to hit or sit down—no walking going on yesterday.

WALDO 1, MICANOPY 0.

Interesting Contest at Former Place Tuesday Afternoon.

One of the prettiest games of ball played in this section for some time was the one Tuesday between Waldo and Micanopy, when the former came out victorious by a score of 1 to 0.

It was a pitchers' battle to a certain extent, although they had fair support and the game played reflects credit upon the teams.

Prewitt and Harvey were the battery for Waldo, while Watkins and Hester did the heavy work for Micanopy.

Considerable rivalry exists between these places, but this now gives Waldo the lead, they having secured the first two games.
